

ATTACHMENT A PROJECT UPDATE:
COMPLETED CONTROL STRATEGIES
FOR 6/28/2012 NAC VISIT

ESCO has completed the control strategy building and operational changes for the following emission reduction projects. These projects are part of Attachment A to the ESCO/Neighbor Good Neighbor Agreement (GNA). The Method of Confirmation has been completed for these projects and they will continue to be managed per the GNA.

PROJECT #4: Seal leaks and openings on P3 Pouring Cooling Shakeout, Plant 3

Actions: Leaks and openings have been sealed and a new canvas door has been added.

Results: Reductions in PM, Metallic HAP's and odor.

Method of Confirmation: Visual inspection has occurred and will be repeated at least once annually and repairs made as needed by Plant Maintenance. In addition, this area is part of the ESCO Environmental Group's monthly inspection. Neighbor groups may now inspect the cooling room enclosure and audit inspection reports. ESCO will include a summary of inspections and repairs in its annual report to the NAC.
