

Mike Fillion
Vice President, Global Supply Chain & Operations

ESCO welcomed Mike Fillion as General Manager, Manufacturing Operations for the Mining Division in 2014. He was promoted to Vice President of Operations in 2015. With this promotion, Mike expanded his operational responsibilities to include all global manufacturing and foundry operations for the Mining Division. Mike now leads world-class operational excellence throughout ESCO's supply chain and global foundry network across six continents, with an emphasis on safety, cost reduction and customer service.

Mike served at PCC Structural as the Vice President and General Manager of their Small Structural Business Operation prior to joining ESCO. His diverse leadership exposure and lean manufacturing experience have been key to ESCO's continued growth.
