## **ESCO Increases Presence in Western Australia**

*New Perth location will provide direct supply and service to local customers*

**Brisbane, Australia**—ESCO Corporation (USA), a leading independent designer, manufacturer and provider of highly engineered wear parts and replacement products used in surface mining, infrastructure development, power generation, aerospace and industrial applications, has established a new sales, service and distribution facility in Perth.

“Establishing the ESCO Perth location is a key step in the company’s plan to effectively serve Australian customers with local sales and technical support,” said Jeff Kershaw, Managing Director for the Asia Pacific region. “This direct presence will provide ESCO customers with critical access to on-site technical expertise, local inventory of our innovative wear products and services, and tailored solutions to maximize productivity and safety.”

When open on July 1, 2011, ESCO Perth will house local sales and service personnel, and will be the region’s primary distribution center, serving customers throughout Western Australia. The distribution center will have fully contained inventory and shipping capabilities for a complete range of ESCO products.
