ESCO Corporation Continues to Grow Footprint in Australia

Mt. Isa location to increase support capabilities in this key mining area

Brisbane, Australia—[ESCO Corporation](#) (USA), a leading global provider of wear parts and attachments for the mining and construction industries, extends its reach in Australia with the establishment of a new sales and service location in Mt Isa, Queensland.

“ESCO Mt. Isa will provide us with the platform to bring unparalleled value in products and services to our customers in this key mining region”, stated Jeff Kershaw, Managing Director, Asia Pacific, for ESCO Corporation.

Beginning on April 1, 2011, ESCO Mt. Isa will open with local sales and service personnel, and will immediately offer a complete range of manganese crusher wear products, bi-metallic wear buttons and blocks, and the Ultralok[®] Tooth System. An expanded range of products, including a full line of ESCO Ground Engaging Tools, buckets and wear parts, will become available following expiration of ESCO’s license agreement with Bradken on June 30, 2011.

“ESCO’s presence in the area shows a strong commitment to our customers and the communities we serve,” said Steve Lennard, Director of Sales for Australia. “The hard rock industries’ ever-increasing demand for safety and durability makes Mt Isa an ideal location for ESCO products and complementary services.”
